PROFESSIONAL SUMMARY

Proficient in full-stack MERN development, skilled in crafting responsive web applications. Well-versed in RESTful APIs, database management, and version control systems. Demonstrates robust problem-solving abilities, eager to contribute expertise.

EDUCATION

Bapuji Institute of Engineering and Technology
Bachelor of Engineering in Mechanical Engineering
Aug 2022
Masai
Full Stack Web Development
Dec 2023

SKILLS

Technical Skills: MongoDB, Express.js, Node.js, Responsive Web Design, Git, Redux, React, JavaScript, CSS3, HTML5, Java
Soft Skills: Attention to Detail, Adaptability, Problem Solving, Effective Communication

EXPERIENCE

Pazago Technologies Private Limited | *Frontend Developer*

Dec 2024 - Jul 2025
- Developed responsive user interfaces using React.js and Redux
- Optimized application performance through code refactoring and efficient state management
- Collaborated with UI/UX designers to implement pixel-perfect layouts
- Integrated RESTful APIs to ensure seamless data flow and dynamic content rendering

PROJECTS

MERN-E-Commerce | *React, MongoDB, Express.js, Node.js, Redux, Tailwind CSS, Responsive Web Design*

- Deployed Link : https://mern-e-commerce-sand.vercel.app/
- Github Repo : https://github.com/AnandAK07/MERN-E-Commerce
- Developed a responsive e-commerce web application using React.js and Tailwind CSS for optimal performance across devices.
- Implemented product listing, filtering, and search features to enhance user experience and product discovery.
- Managed global state for cart, user data, and products with Redux, integrating React Router DOM for smooth client-side navigation.
- Built interactive UI components and handled error states and loading indicators to ensure seamless user interactions.

Jewelry E-Commerce Web Application (Collaborative Project) | *React, MongoDB, Express.js, Node.js, Responsive Web Design, Tailwind CSS, Redux, Git*

- Deployed Link : https://gem-garden-jewelry-store.vercel.app/
- Github Repo : https://github.com/AnandAK07/gem-garden-jewelry-store
- Built a dynamic, responsive e-commerce platform using React.js and Tailwind CSS, ensuring accessibility and user engagement.
- Implemented client-side routing and state management with React Router and Redux to improve user experience and data flow.
- Maintained clean, modular code and well-structured product pages, adapting quickly to changing requirements and incorporating feedback for continuous improvement.
- Managed tasks efficiently and communicated proactively with stakeholders to ensure smooth project delivery.
